EDITOR'S LETTER

The family of wool, alpaca, llama, cashmere, mohair and their synthetic cousins are the most frequent focus of knit world.

Although many would rather create with wool than any other fiber, it's worthwhile to keep an open mind. Where I live in the Midwest, the summers are perfect for hand knits. While some seek the respite of air conditioning, I like it hot!

Take a peek inside my sweater closet and you'll see it half-full of the above fibers ready to warm me up in the fall. The other half contains linen, cotton, silk and blends, which I love to wear when it sizzles. The finer gauge yarns lure me to spend many hours on a project which won't fail me when the temps climb high. Lace is a lovely way to lighten up a knit, and we have lots to tempt you!

Join me in getting ready for summer by paging through this issue with an eye to the season ahead. In the time it takes to knit a summer sweater, it will be time to wear it! Isn't it amazing how things just come together?

Keep your cool and create something spectacular for summer!

CREATIVE LETTERS

Our readers learn magic loop and cable tricks and share their talents!

The Magic Loop

As a devoted practitioner of the Magic Loops method, I was so glad to see you include that in *Creative Knitting* (November 08 edition: Cabled Wristlets, page 41; A Small Circumference Alternative, page 42 and Christmas Stocking, page 43). Double-point needles have always been daunting to me. Since I learned this method it has revolutionized my knitting. Now I knit everything with circulars and have made socks, hats, mittens and gloves with one long circular needle. I love this method! My double points have been relegated to I-cords and cable needles.

For those with spatial problems who have trouble keeping track of things, Magic Loops is the key. All you do is divide the stitch count in half! For patterns, I use markers and I'm all set to make the most intricate and small things. I'm glad you let readers of *Creative Knitting* in on the secret. I love your magazine.

Masha Traber, Lexington, MA

Cable Debut

I just want to tell you how much I enjoy your magazine! In every issue, I find something inspiring. I had

wanted to try cables, but sweaters with multiple cables put me off. Then I received your November issue and couldn't wait to try the cable scarf (Twisted Cable Scarves, page 34). I love it! I'm on my third one. Keep up the good work.

Joan Braunsteiner, CAPAC, MI.

Now that you know how easy cables are, you may rethink those cabled sweaters. —Editor

Leftovers Benefit Missions

When I accumulate leftover yarn from projects, I knit baby afghans. You can use your favorite patterns and start knitting with one color, knit to the end of that yarn, change to another, and keep on knitting until you reach the size you want. I donate the blankets to our church to send in layettes to foreign missions. While these may not be suitable for your favorite niece's baby, the recipients are thrilled to have a blanket created just for them and do not worry about colors. I enjoy reading the newsletters and get many ideas from them. Keep up the good work!

Beautiful books to help you to knit from the top and avoid sweaters' seven deadly sins!

Custom Knits

By Wendy Bernard
(\$27.50, Stewart, Tabori & Chang,
168 pages)

For a more in-depth look at top-down construction, pick up *Custom Knits*. Wendy Bernard, of *Knit and Tonic* blog fame, presents 25 designs knit from the top down, with instructions on how to customize the look and fit as you work. These are classic yet stylish designs, truly suitable for a wide range of ages and body types. Each pattern has a "Make It Your Own" sidebar with suggestions for pattern alterations for a custom look.

For the more adventurous knitter, the final chapter (entitled "Unleash Your Inner Designer: Elements to Alter and Starting from Scratch") is particularly helpful. It offers all the information you may need to change from a round- to a V-neckline, adjust length and shaping, add afterthought sleeves and so on. In addition, several pages are devoted to the classic top-down raglan and the classic top-down set-in sleeve sweater formulas, so you'll be ready to design your own sweaters, if you choose.

Seven Things That Can Make or Break a Sweater

By Margaret E. Fisher
(\$24.95, Vanduki Press, 132 pages)

Margaret Fisher has been designing sweaters and teaching knitting and sweater design workshops at the national level for many years. At last, *Seven Things that can Make or Break a Sweater* allows those knitters unable to take classes the opportunity to learn from a master teacher. Based on a popular workshop of the same name, the book offers clear close-up photographs to take the reader step-by-step through each of the techniques that every knitter should master: cast-on edge, increasing in ribbing, slanting decreases, invisible increases, blocking, picking up stitches for bands, and buttonholes.

The second part of the book offers seven classic patterns on which to practice your new-found skills. This is a good little book with a lot of useful information for beginning and intermediate knitters.

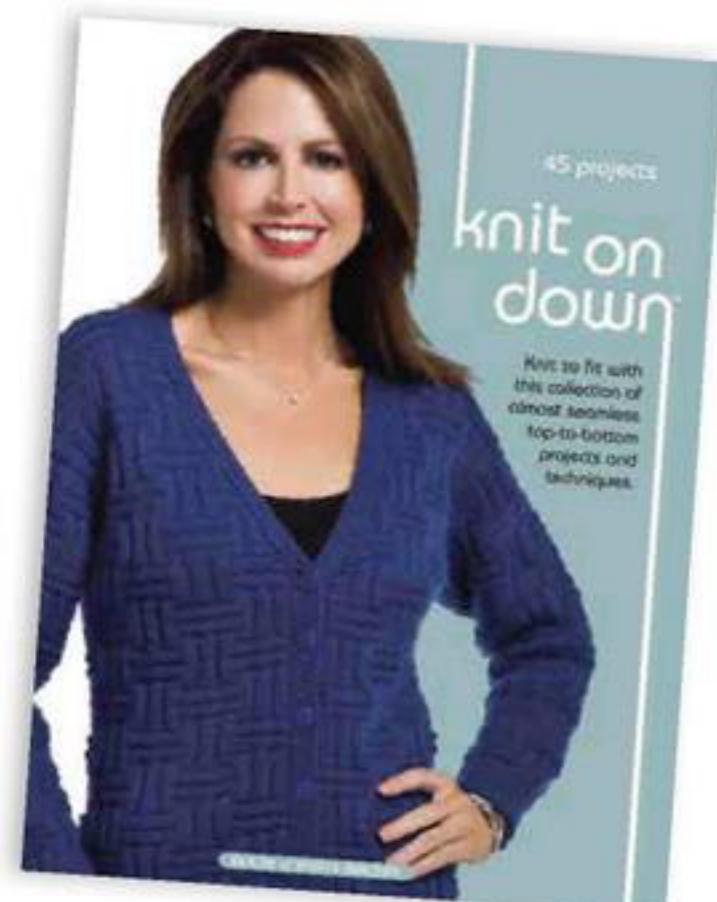

Knit on Down

Edited by Jeanne Stauffer
(\$19.95 to \$24.95, House of White Birches, 176 pages)

Knit on Down is an example of inspired designing turned on its head. These are dynamic, stylish and classic items to enjoy for years.

Why start at the top of a sweater and head south? You can avoid sewing seams, address fit issues and try on the garment as you knit. It's easy to add length for growing kids. When the knitting is finished, so is the sweater!

A comprehensive review of circular construction leads to the designs: cardigans, pullovers, socks and hats for women, men and children. Winter and summer designs abound, with both easy and more complex patterns. With 45 projects, this is a treasure trove of patterns for the knitter

with an open mind. Large and clear photographs help with the details, and the schematics make alterations to custom fit a breeze.

all sizes.

Finished Measurements

Chest: 31½ (35, 39½) inches

Length: Approx 17 (17¾, 18¾) inches

Materials

- DK weight yarn* (249 yds/125g per skein): 3 (4, 4) skeins cameo #3452
- Size 6 (4mm) needles or size needed to obtain gauge

Note: An alternate method for MB, worked entirely on RS (either version works fine in this pattern): In next st, [k1, p1] 3 times, take yarn to back, pass 2nd, 3rd, 4th, 5th and 6th sts over first st and off needle (bobble completed).

Pattern Stitches

Bobble Trim

Row 1 (RS): Knit across.

Row 2: Knit 4 (or as specified in pat), *MB, k6; rep from *, working last rep MB, k4 (or as specified in pat).

Row 16: Purl across.

Rep Rows 1–16 for pat.

Pattern Notes

The pattern is simple to work, but special attention is required to maintain continuity of pattern on increase and decrease sections. It's a good idea to count the stitches from time to time. The back and sleeves are an odd number, so if you count an even number there, you may have missed an increase or decrease.

In shaping areas, where there aren't enough stitches to make a complete motif, make half of it to fill the space. Be sure that for every yarn over, you have a matching decrease.

Back

Cast on 83 (93, 103) sts.

Rows 1–4: Work 4 rows of Bobble Trim, beg Row 2 with k3 (4, 2) and end MB, k2 (4, 2).

Beg pat: K1 (0, 2), place marker, work Row 1 of Little Lace pat to last 1 (0, 2) sts, place marker, knit to end.

Rows 2–10: Work Little Lace pat between markers, keeping edge sts in St st.

Row 11: Work in pat, inc 1 st at each edge—85 (95, 105) sts.

Continue to work in established pat for another 13 rows, then inc 1 st at each edge on following row—87 (97, 107) sts.

Sizes extra-small & small only:

Work even in pat until back measures 7½ inches from beg, ending with a WS row.

Size medium only: Work even in pat for another 11 rows, then inc 1 st at each edge on following row—109 sts. Work even in pat until back measures 7¾ inches from beg, ending with a WS row.

Shape armholes

Maintaining pat throughout, bind off 3 (4, 5) sts at beg of next 2 rows—81 (89, 99) sts.

Row 1: K1, ssk, work in pat to last 3 sts, k2tog, k1—79 (87, 97) sts.

Rep Rows 1 and 2 until 23 (27, 33) back neck sts rem, ending with a WS row.

Next row: Dec 1 st at each edge, and at the same time, dec 2 (2, 4) sts evenly across—19 (23, 27) sts rem. Bind off on WS.

Left Front

Note: Read through instructions before beg; front and armhole edge shaping is worked at the same time. Do not beg with bobble trim on front; trim is worked separately and sewn on later. Inc on center front edges by knitting or purling into front and back of 3rd st from edge.

Cast on 17 (21, 26) sts and beg pat on Row 9. Maintaining pat, shape front curve by inc 1 st at center front [every row] 12 times, [every RS row] 4 times, then [every other RS row]

Knitter's Workshop: Designing with Lace

A knitted lace purse makes an elegant addition to any special outfit. Match or coordinate it to any ensemble, in a size to fit your needs. A simple clutch purse made from a folded rectangle is perhaps the easiest to design and assemble.

Such a rectangle should be taller than it is wide. If you divide the height in fifths, you must have $\frac{1}{5}$ for the front of the purse, $\frac{2}{5}$ for the back and $\frac{1}{5}$ folded over for the front flap, which will end about halfway down the bag. Therefore, when planning a purse, decide how wide and how high you want your finished bag to be, then knit a rectangle of the desired width and $2\frac{1}{2}$ times as high as the finished height.

Choosing the Pattern Stitches

Now for the fun part—finding patterns to fill this rectangle. One choice is the selection of two different patterns, one for the flap or its edging and one for the body of the purse. You might select a large, fancy pattern for the flap, such as one with a combination of knit and purl areas that gives it a three-dimensional quality.

Other options for large flap patterns include a Feather and Fan stitch or Crest of the Wave pattern. Patterns for ripple afghans also work well. All of these patterns make a rippled or scalloped edge by alternating areas of increased stitches with areas of decreased ones. When you change from such a pattern to the main pattern, you will probably have to "tame" these ripples so the top inside edge of your purse is straight. The easiest way to do this is to continue the ripple pattern as established, but eliminate the increases. Work one or two less decreases per pattern row until you are down to half the original

number of decreases; after a few rows, the pattern will even out so it no longer ripples. Inserting a few rows of garter stitch as a transition from the border to main pattern will also help.

It is also possible to use a lace edging for the flap pattern. This edging is worked sideways onto the final edge of the purse piece. In such a case, the rectangle for the purse only needs to be twice as high as the desired height of the purse. When you choose an edging, be sure that half the number of rows in the edging divides evenly into the final number of purse stitches.

To attach a lace edging, cut the yarn for the body of the purse, leaving a 6-inch end. With the right side of the purse facing you and using a separate double-point needle, cast on the required number of edging stitches. Work the first 2 sts (the first purse stitch and the last cast-on stitch) of the first edging row as k2tog instead of the sl 1 or k1 given in the instructions. Every time you end a wrong side row, slip the last stitch of the edging with yarn in front. Turn the work. At the beginning of each right side row, work k2tog on that slipped stitch and the next purse stitch. Bind off when all purse stitches have been attached to the edging.

A nice option is a narrow, scalloped border. These are harder to find, but sometimes can be located in books of

antique patterns. Again, you can use a knitted-on narrow edging as an alternative.

Patterns for the body of the purse can be vertical columns of lace or all-over patterns. The use of two knit stitches between each lace column gives textural interest and can be helpful in making a transition between the scallops of the border and the lace pattern. The multiple of the border determines the number of fill stitches used between the columns. The combination of the simple border with the very open lace is very appealing. One ridge of garter stitch can also be used where one pattern stops and the other starts.

The opposite also has an attractive look with a very fancy flap pattern and contrasted with a simple and not-very-open lace on the body of the purse. Again stitches can be used between the vertical patterns. Using purl stitches between the knitted lace columns makes the fabric look somewhat like ribbing, with the purl parts receding and the knitted lace parts standing out. There are many small lace patterns that would work for this type of purse. A small all-over lace would also look nice.

Lining the Purse

A knitted lace purse will need a lining for stability. I prefer to use a lining and an interlining, so all seams are enclosed and do not show through the lace. For this you will need two rectangles of fabric (something elegant like satin or taffeta is nice), each $\frac{1}{4}$ -inch bigger on all sides than the finished purse piece.

Fold the bottom edge of 1 fabric piece upward $\frac{1}{2}$ of the way, having the

Pattern Notes

To help maintain pattern during shaping, place markers between pattern repeats.

Some decreases are worked on a chart pattern row without increases, resulting in a different stitch count. Only count stitches after pattern Rows 3 or 4. During shaping, if there are not enough stitches to work each decrease with all its companion yarn overs, work the stitches in Stockinette stitch. If there are not enough stitches to work a complete cable crossing, work the cable stitches in Stockinette stitch.

Work increases and decreases 1 stitch in from edge unless stated otherwise.

Single Increases

In the last issue, we discussed various types of single decreases and how to choose the proper decrease to achieve the desired look. Now it's time to examine increases and discuss the effect they have on the knitted fabric.

Many times pattern instructions will call for a certain type of increase and then describe the increase. In these cases, you may safely go ahead and use that type of increase, confident that it will mimic the style of increase made in the sample garment. However, if the pattern instructs you to "increase one stitch each edge every 4th row," it's up to you to decide which type of increase is most appropriate.

Some increases are created from a single stitch, so that one stitch becomes two. Other increases are "make 1" increases, which create a stitch between two existing stitches. The designation "make 1" can be confusing, because there are several different types of increases that can be called "make 1". Pay attention to the abbreviations list or stitch guide in the pattern to ensure you understand which "make 1" increase is being used.

Additionally, some increases are more visible—and thus potentially more (or less) decorative—than other increases. Some increases lean slightly to the left or right and so may be chosen with this feature in mind.

As when working with decreases, placement of the increases matter. In most instances, it works best to place increased stitches at least one stitch in from the edge in order to make finishing easier. Therefore, on a sleeve, knit one stitch, increase one, knit until one stitch remains on the left-hand needle, increase one, then knit the final stitch. You now have one plain stitch on each edge, which makes seaming much easier.

Increases may be made on either the wrong side or on the right

1. Yo (yarn over): Bring yarn to front and over top of needle, then work next stitch. On the next row, work loop without twisting, so it stays open.

2. Knit in front and back of stitch: Knit stitch in the usual manner, then before slipping it off the needle, reach behind and knit again in the back loop. This forms a small horizontal bar in the work.

3. Running bar increase: Inc by knitting into twisted loop of strand running between stitch on left needle and stitch on right needle.

side, although it is much easier to remember to work them on the right side of the fabric. This usually means the knit side of a stockinette stitch fabric. However, it is also possible to work purl increases in order to keep the new stitches in pattern.

Take a few moments to try out the following increases. While you don't have to memorize each one, just knowing that they exist (and that you can look them up again) adds one more useful item to your mental knitting tool box.

Single Increases

A *Yarnover* increase (Photo 1), commonly abbreviated as yo, is the easiest increase. In fact, it is so common and so easy that many knitters don't even think of it as an increase. A yarnover increase creates a hole in the fabric.

Work to the desired increase location. If the last stitch worked was a knit stitch, bring the yarn forward between the two needles, wrap it over the top of the right-hand needle, and around to the back once more, ready

to knit the next stitch. This is the same motion you would use to wrap the yarn when making a knit stitch.

If the last stitch worked was a purl stitch, the yarn is already in the front, so bring it over the top of the right-hand needle and around to the back.

At this point, the next stitch is ready to knit and you have a yarn over on your right-hand needle. If the next stitch is meant to be purled, bring the yarn forward again between the needles in preparation to purl.

On the return row (or on the following round), treat the yarn over as a stitch. Knit or purl into it as the pattern stitch requires. You will see that you have created an eyelet opening while creating a new stitch.

To make the eyelet smaller, work the increase as described above, but on the following row or round knit or purl into the back of the yarn over. This will twist the eyelet and make it smaller.

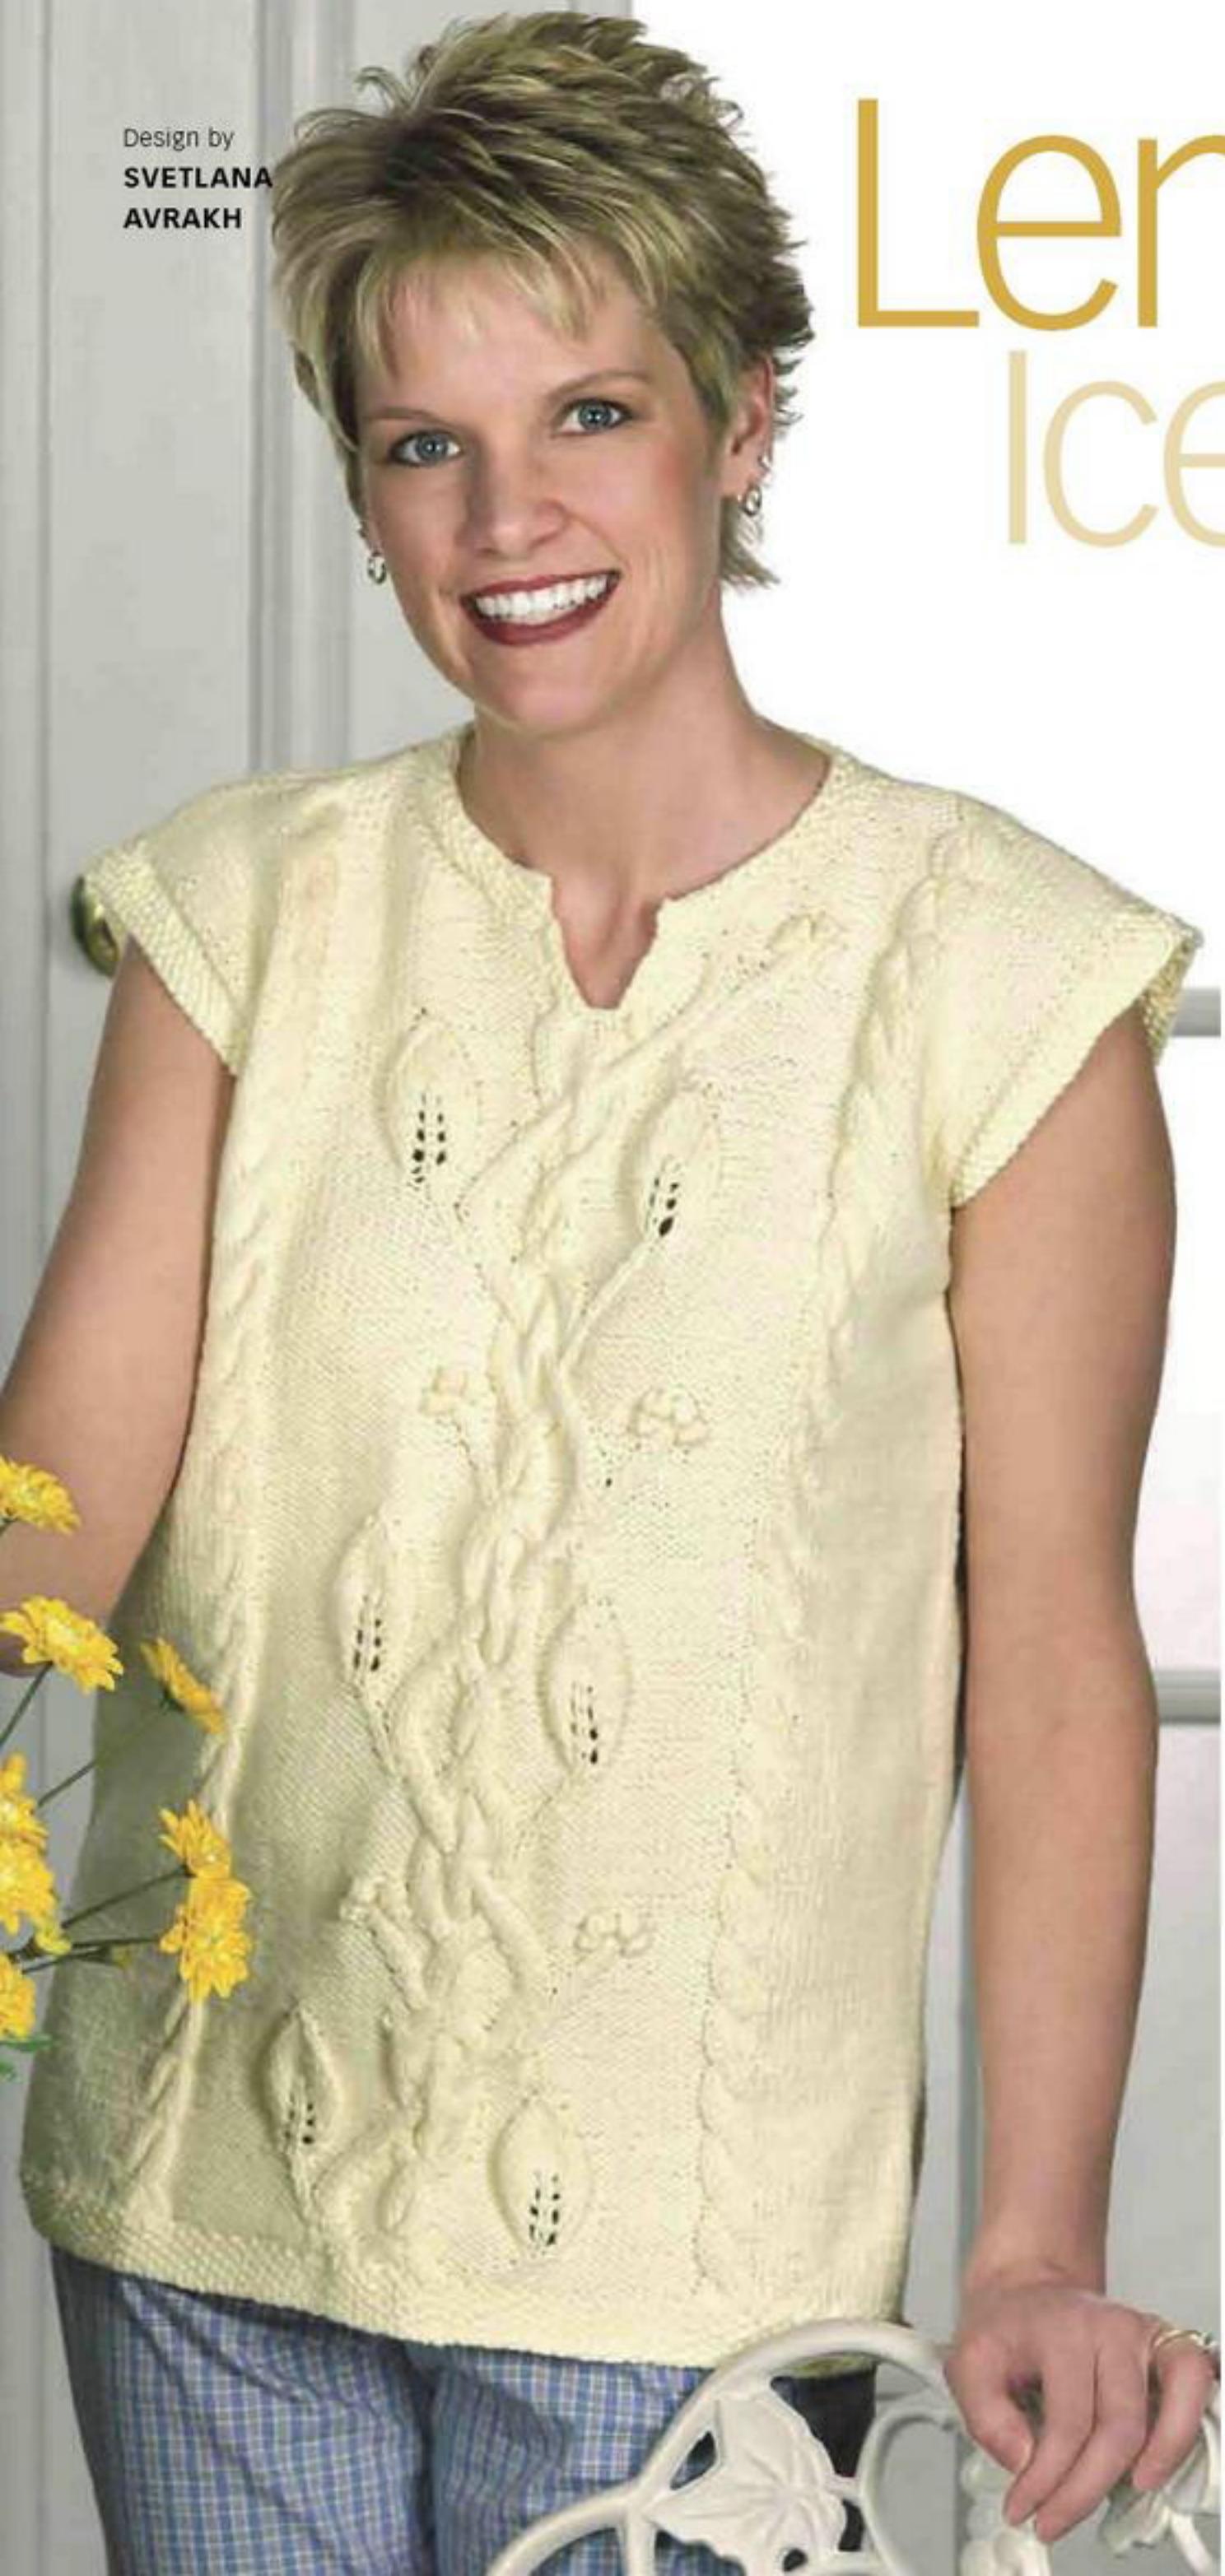

Knit one front-and-back (Kf/b) (Photo 2) is an increase most often used by beginning knitters. It creates a tiny bar or bump to the left of the increased stitch. In addition, it "uses

KNIT SLENDER WIRE
AND BEADS TO MAKE
STUNNING SHAWL PINS.

Pattern Notes

The designer Joyce Mori developed this project for the Heart of Illinois Knitting Guild. Throughout the year their programs consisted of knitting with different types of materials. As their fashion show featured shawls, a shawl pin from wire seemed to be a perfect fit. These pins are easy to make, inexpensive and very attractive. Beads can be a single color or mixed colors and sizes.

If beads face you, it is a knit row with no beads. If beads are at the back of the knitting, it is a row for adding beads.

Knitting with wire is different from knitting with yarn. Do not bend the wire as this will weaken it.

The first few rows can be difficult. Gently pull on the bottom of the knitting after you complete each row.

To keep the wire from springing all over, use a piece of masking tape and tape the wire to a spool. Joyce used a section of the cardboard tube from paper towels. Let only about a yard of wire out at a time.

Shawl Pin

String all beads onto wire. (See Photo 1)

Make a slip knot, leaving a 12-inch tail. Cast on 4 more sts, using finger loop or e-cast-on (see Knitting Class, page 70)—5 sts. Do not pull cast-on sts tight.

Row 1: Knit across.

Row 2: *K1, [insert needle into next st, slide bead up, knit bead into st]; rep from * to last st, end k1.

Do not expect this knitting to look neat and even as it would if you were using yarn. If you use smaller beads, you can add a bead with every st in Row 2. Pull down slightly on knitted section as you work.

Rep Rows 1 and 2 until strip measures approx 6½ inches long, leaving a 12-inch tail and ending with Row 2. Bind off. Pull wire through last loop to secure.

Carefully fold strip in half along length, WS tog. Do not pinch folded edge flat. (See Photo 2)

Weave 1 wire tail through long open edge to join sides tog; do not pull too tight. You can use a running st or whip st. Rep this step with 2nd long wire tail along folded edge. Do not trim wire ends yet.

Curve strip into ring with ends tog, secure with rem wire tails. (See Photo 3)

When circle is joined, hide ends in circle and trim rem wire ends as needed.

Stick Pin

Cut off a smooth bamboo skewer or chopstick and add a bead, or use a metal pin as shown. ■

and a wider buckle will require more stitches. Determine the size you need for a different buckle by working a gauge swatch and calculating the number of stitches needed for an inch of knitting, then multiply the number of stitches per inch by the width of the belt buckle.

The yarn contains elastic, and the belt will be somewhat stretchy.

Belt

Cast on 15 sts. Knit every row, sl first st knitwise.

Work until belt measures approx 1 inch longer than desired length.

3-Needle Bind-Off

Use this technique for seaming two edges together, such as when joining a shoulder seam. Hold the edge stitches on two separate needles with right sides together.

With a third needle, knit together a stitch from the front needle with one from the back.

Repeat, knitting a stitch from the front needle with one from the back needle once more.

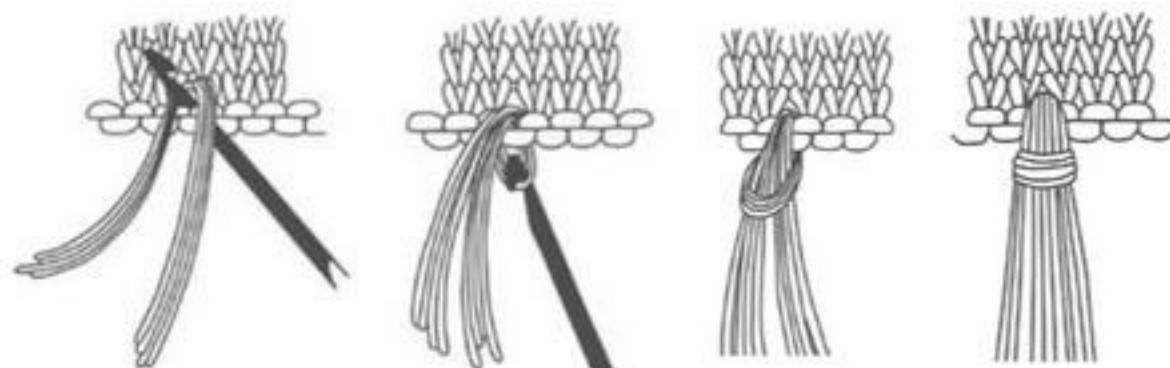

Slip the first stitch over the second.

Repeat knitting, a front and back pair of stitches together, then bind one off.

Fringe

Cut a piece of cardboard half as long as specified in instructions for length of strands plus $\frac{1}{2}$ inch for trimming. Wind yarn loosely and evenly around cardboard. When cardboard is filled, cut yarn across one end. Do this several times, then begin fringing. Wind additional strands as necessary.

Single-Knot Fringe

Hold specified number of strands for one knot together, fold in half. Hold project to be fringed with right side facing you. Use crochet hook to draw folded end through space or stitch indicated from right to wrong side.

Pull loose ends through folded section. Draw knot up firmly. Space knots as indicated in pattern instructions.

Working Short Rows

Wrap/Turn (w/t)

This method of working the shoulder avoids holes or a staggered bound-off edge.

Work as follows:

*Work to indicated turning point, take yarn to right side of fabric (in front on knit row, in back on purl row), slip next stitch purlwise, take yarn to wrong side of fabric (Photo A).

Turn work. Slip stitch, purlwise to right needle (Photo B).

Repeat from * until short rows are completed.

When all wraps are completed, work across row using the following method to work wrap and stitch together.

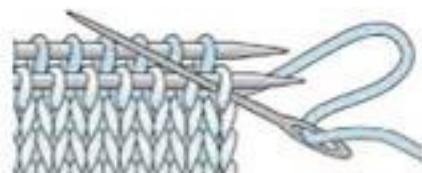

On knit side, insert tip of right needle into wrap, then into stitch and knit them together (Photo C).

On purl side, insert tip of right needle into wrap from right side, lift it onto left needle, then purl stitch and wrap together.

Kitchener Stitch

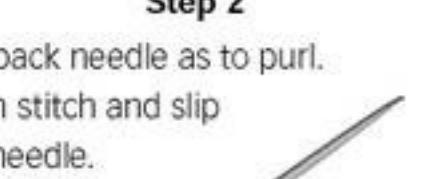

This method of weaving with two needles is used for the toes of socks and flat seams. To weave the edges together and form an unbroken line of stockinette stitch, divide all stitches evenly onto two knitting needles—one behind the other. Thread yarn into tapestry needle. Hold needles with wrong sides together and work from right to left as follows:

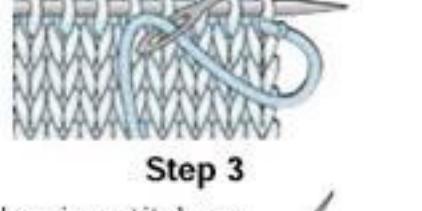

Step 1

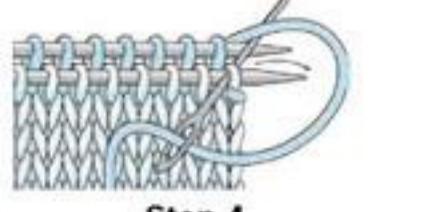

Step 2

Step 3

Step 4

Step 5

Repeat Steps 2 through 5 until one stitch is left on each needle. Then repeat Steps 2 and 4. Fasten off. Woven stitches should be the same size as adjacent knitted stitches.

Provisional Cast-On

The provisional cast-on has a variety of uses. It starts with a crochet chain on a crochet hook about the same size as the knitting needle. A chart is given below of crochet hooks that correspond most closely to knitting needle sizes.

Crochet Hook	Knitting Needle
E	4
F	5
G	6
H	8
I	9
J	10
K	10½

To work this type of cast-on, start with a crochet chain one or two stitches more than the number of stitches to be cast on for the pattern you are working. If the edge is to be decorative or removed to work in the opposite direction then the chain should be made with a contrasting color.

Once the chain is completed, with a knitting needle, pick up and knit in the back bump of each chain (Photo 1) until the required number of stitches is on the needle. Continue to work the pattern as given in the instructions.

Some instructions indicate that the provisional cast-on be removed so the piece can be worked in the opposite direction. In this case, hold the work with the cast-on edge at the top. Undo one loop of the crochet chain, inserting the knitting needle into the stitch below the chain. (This stitch is on the original first row of knitting). Continue to undo the crochet chain until all the stitches are on the needle. (Photo 2) This provides a row of stitches ready to work in the opposite direction.

Pick Up & Knit

Step 1:

With right side facing, working 1 st in from edge, insert tip of needle in space between first and second stitch.

Step 1

Step 2:

Wrap yarn around needle. (We show a contrasting color, but you will want to use the same yarn you used for your project.)

Step 2

Step 3:

Pull loop through to front.

Step 3

Step 4:

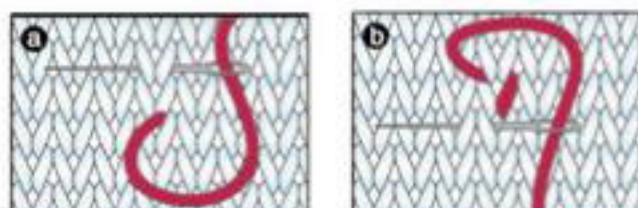

Repeat steps 1–3.

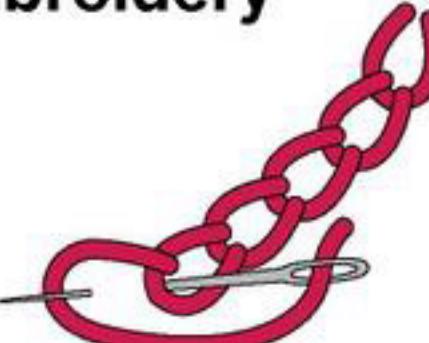

Step 4

Duplicate Stitch

From underneath piece, bring yarn up in the center of the stitch below the stitch to be duplicated. Place needle from right to left behind both sides of the stitch above the one being duplicated, and pull yarn through (a). Complete the stitch by returning the needle to where you began (b).

Running Stitch

Twisted Cord

Items sometimes require a cord as a drawstring closing or strap. The number of lengths and weight of yarn determine the thickness of the cord.

To form the cord, hold the number of cords indicated together tying ends together with overhand knot. Attach one end to a doorknob or hook. Insert pencil into loop end and turn like a propeller until entire length of cord begins to kink.

Once the cord is tightly twisted, continue to hold the twisted end while folding the yarn in the middle. Remove the end from the knob or hook and match the two ends, then release them allowing the cord to twist on itself.

Trim the cord ends to the desired length and knot each end. If the cord is woven through eyelets, it may be necessary to tie a second knot in the end to prevent it from slipping back through the eyelet opening.

We've included the basics here for your reference.

Cast On

Leaving an end about an inch long for each stitch to be cast on, make a slip knot on the right needle.

Place the thumb and index finger of your left hand between the yarn ends with the long yarn end over your thumb, and the strand from the skein over your index finger. Close your other fingers over the strands to hold them against your palm. Spread your thumb and index fingers apart and draw the yarn into a "V."

Place the needle in front of the strand around your thumb and bring it underneath this strand. Carry the needle over and under the strand on your index finger.

Draw through loop on thumb.

Drop the loop from your thumb and draw up the strand to form a stitch on the needle.

Repeat until you have cast on the number of stitches indicated in the pattern. Remember to count the beginning slip knot as a stitch.

Cable Cast On

This type of cast on is used when adding stitches in the middle or at the end of a row.

Make a slip knot on the left needle. Knit a stitch in this knot and place it on the left needle. Insert the right needle between the last two stitches on the left needle. Knit a stitch and place it on the left needle. Repeat for each stitch needed.

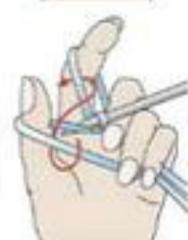

Knit (k)

Insert tip of right needle from front to back in next stitch on left needle.

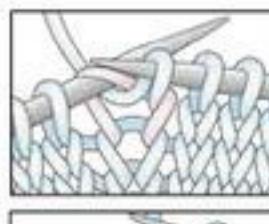

Bring yarn under and over the tip of the right needle.

Pull yarn loop through the stitch with right needle point.

Slide the stitch off the left needle. The new stitch is on the right needle.

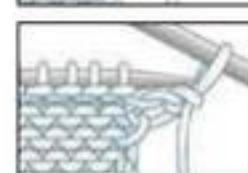

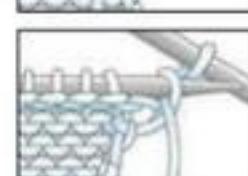

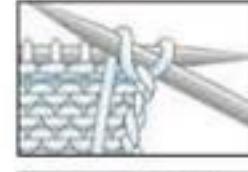

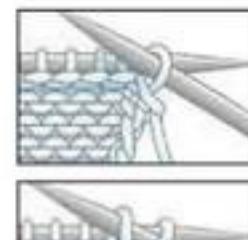

in the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and knit again into the back of the same stitch. Slip original stitch off left needle.

Increase (purl)

Purl the next stitch in the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and purl again into the back of the same stitch. Slip original stitch off left needle.

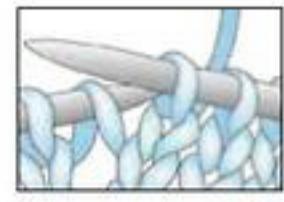

Purl (p)

With yarn in front, insert tip of right needle from back to front through next stitch on the left needle. Bring yarn around the right needle counterclockwise. With right needle, draw yarn back through the stitch.

Slide the stitch off the left needle. The new stitch is on the right needle.

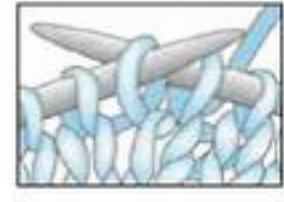

Invisible Increase (M1)

There are several ways to make or increase one stitch.

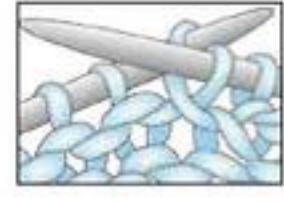

Make 1 with Left Twist (M1L)

Insert left needle from front to back under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the back of this loop.

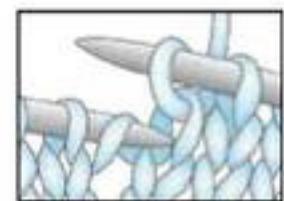

To make this increase on the purl side, insert left needle in same manner and purl into the back of the loop.

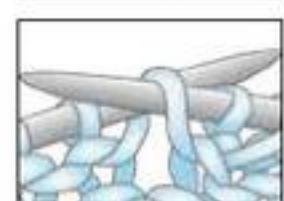

Make 1 with Right Twist (M1R)

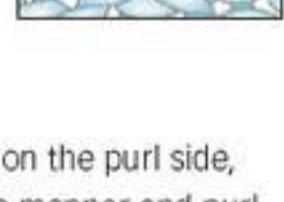

Insert left needle from back to front under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the front of this loop.

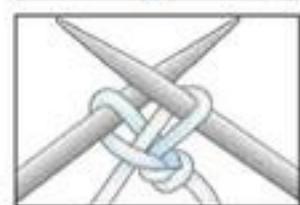

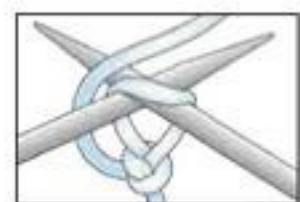

To make this increase on the purl side, insert left needle in same manner and purl into the front of the loop.

Make 1 with Backward Loop over the right needle

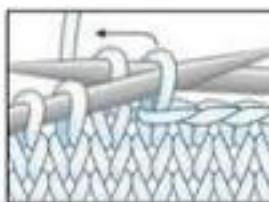

With your thumb, make a loop over the right needle.

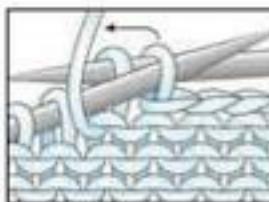

Bind-Off

Binding off (knit)

Knit first two stitches on left needle. Insert tip of left needle into first stitch worked on right needle and pull it over the second stitch and completely off the needle.

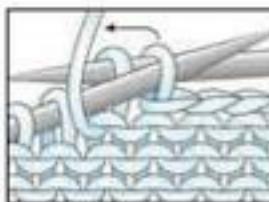

Knit the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

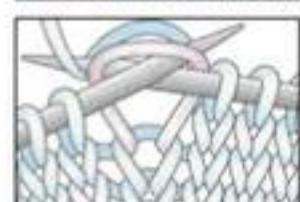

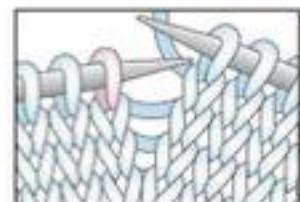

Binding off (purl)

Purl first two stitches on left needle. Insert tip of left needle into first stitch worked on right needle and pull it over the second stitch and completely off the needle.

Purl the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

Increase (inc)

Two stitches in one stitch

Increase (knit)

Knit the next stitch

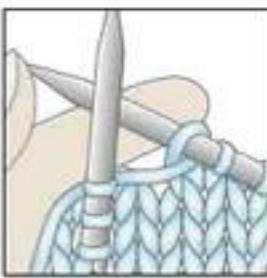

Slip the loop from your thumb onto the needle and pull to tighten.

Make 1 in top of stitch below

Insert tip of right needle into the stitch on left needle one row below.

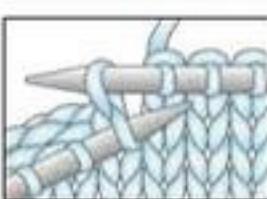

Knit this stitch, then knit the stitch on the left needle.

Decrease (dec)

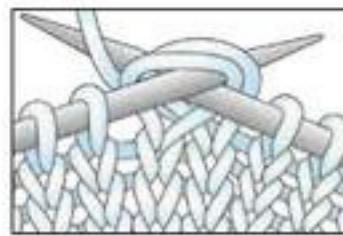

Knit 2 together (k2tog)

Put tip of right needle through next two stitches on left needle as to knit. Knit these two stitches as one.

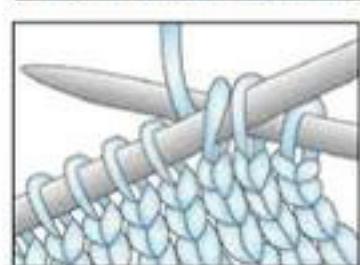

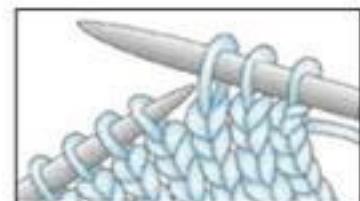

Purl 2 together (p2tog)

Put tip of right needle through next two stitches on left needle as to purl. Purl these two stitches as one.

Slip, Slip, Knit (ssk)

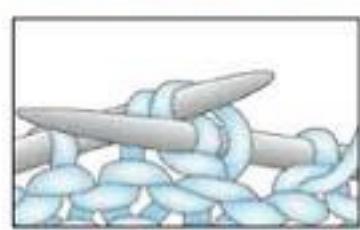

Slip next two stitches, one at a time, as to knit from left needle to right needle.

Insert left needle in front of both stitches and work off needle together.

Slip, Slip, Purl (ssp)

Slip next two stitches, one at a time, as to knit from left needle to right needle. Slip these stitches back onto left needle keeping them twisted. Purl these two stitches together through back loops.

* GUIDELINES ONLY. The above reflect the most commonly used gauges and needle sizes for specific yarn categories.

Basic Stitches

Garter Stitch

On straight needles knit every row. When working in the round on circular or double-pointed needles, knit one round then purl one round.

Stockinette Stitch

On straight needles knit right-side rows and purl wrong-side rows. When working on circular or double-pointed needles, knit all rounds.

Reverse Stockinette Stitch

On straight needles purl right-side rows and knit wrong-side rows. On circular or double-pointed needles, purl all rounds.

Ribbing

Combines knit and purl stitches within a row to give stretch to the garment. Ribbing is most often used for the lower edge of the front and back, the cuffs and neck edge of garments.

The rib pattern is established on the first row. On subsequent rows the knit stitches are knitted and purl stitches are purled to form the ribs.

Reading Pattern Instructions

Before beginning a pattern, look through it to make sure you are familiar with the abbreviations that are used.

Some patterns may be written for more than one size. In this case the smallest size is given first and others are placed in parentheses. When only one number is given, it applies to all sizes.

You may wish to highlight the numbers for the size you are making before beginning. It is also helpful to place a self-sticking note on the pattern to mark any changes made while working the pattern.

Measuring

To measure pieces, lay them flat on a smooth surface. Take the measurement in the middle of the piece. For example, measure the length to the armhole in the center of the front or back piece,

KNITTING NEEDLES CONVERSION CHART

U.S.	0	1	2	3	4	5	6	7	8	9	10	10½	11	13	15
Metric(mm)	2	2½	2¾	3¼	3½	3¾	4	4½	5	5½	6	6½	8	9	10

not along the outer edge where the edges tend to curve or roll.

Gauge

The single most important factor in determining the finished size of a knit item is the gauge. Although not as important for flat, one-piece items, it is important when making a clothing item that needs to fit properly.

It is important to make a stitch-gauge swatch about 4 inches square with recommended patterns and needles before beginning.

Measure the swatch. If the number of stitches and rows are fewer than indicated under "Gauge" in the pattern, your needles are too large. Try another swatch with smaller-size needles. If the number of stitches and rows are more than indicated under "Gauge" in the pattern, your needles are too small. Try another swatch with larger-size needles.

Continue to adjust needles until correct gauge is achieved.

Working From Charts

When working with more than one color in a row, sometimes a chart is provided to follow the pattern. On the chart each square represents one stitch. A key is given indicating the color or stitch represented by each color or symbol in the box.

When working in rows, odd-numbered rows are usually read from right to left, and even-numbered rows from left to right.

Odd-numbered rows represent the right side of the work and are usually knit. Even-numbered rows represent the wrong side and are usually purled.

When working in rounds, every row on the chart is a right-side row, and is read from right to left.

Use of Zero

In patterns that include various sizes, zeros are sometimes necessary. For example, k0 (0;1) means if you are

making the smallest or middle size, you would do nothing, and if you are making the largest size, you would k1.

Neck Trim

Note series of bumps formed by first garter st row. For fringe, cut 8-inch lengths of yarn. Beg at left back neck with RS facing, and following fringe instructions on

page 68, make single-knot fringe in each garter st bump around neck (be sure to have an even number of fringes). *Hold 2 adjoining fringes tog and tie in an overhand knot; rep from * around. Trim ends. ■

right sides together (see FIG. 1). This will be the lining. Sew the side seams. Repeat with the second piece of fabric for the interlining.

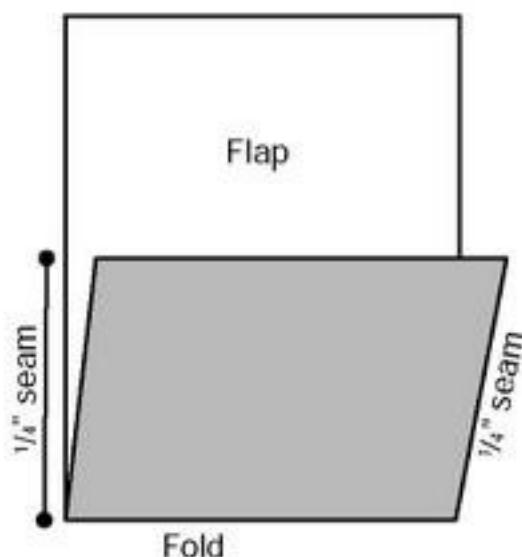

FIG. 1

On the lining piece only, turn the pocket right side out. Lay it on top of the interlining, having the flap towards you and right sides together. Sew the flaps together, turning back $\frac{1}{4}$ -inch at the top front edge of the purse so it doesn't get caught in the flap seam (see FIG. 2). When you turn the flap right side out, you should be able to slip the interlining inside the lining.

All seams will be in between these two pieces and will not show either on the inside or the outside. Turn under the edges at the top of the purse and catch-stitch them together.

Sew the side seams of the purse piece and insert the assembled lining into

the purse. Sew the lining to the purse along the front edge and around the flap. Sew snaps under the flap and on the front of the purse.

If you like, you can also add a strap. The easiest one is made with I-cord. Using two double-pointed needles, cast on 3 stitches. K3, *slip the stitches back to the left-hand needle, k3. Repeat from * until the strap is about $\frac{1}{3}$ less than the desired length. I-cord stretches considerably, thus the reason for making the strap much shorter than the desired length.

Enjoy your new, elegant evening accessory. ■

up" a stitch to create a new stitch, so that one stitch becomes two stitches.

Knit into the next stitch as usual, but do not drop it off the left-hand needle. Insert right-hand needle into the back loop of the same stitch and knit it, then drop the stitch off the left-hand needle. You should now have two stitches on the right-hand needle.

A *lifted increase* is a nearly-invisible increase which grows out of a stitch that has already been formed. It may be made symmetrical by working into either a stitch on the left-hand needle or into a stitch on the right-hand needle.

To make a *right-leaning* lifted increase, insert right-hand needle into the purl bump behind the next stitch on the left-hand needle. Lift this strand onto the left-hand needle and knit into it. One stitch has been created, but the original stitch is still in place ready to be knit.

To make a *left-leaning* lifted

increase, insert the left-hand needle into the purl bump *two stitches* below the last stitch on the right-hand needle. Lift this strand onto the left needle and knit into it. (The reason you are working two stitches below is that you have one more row on the right needle than you do on the left needle.)

A *running bar increase* (Photo 3) may be referred to as a Make 1 (M1). It sits between the last stitch and the next stitch on the left-hand needle. It may be made to be either left-leaning or right-leaning, although the differences are slight.

Insert the tip of the left-hand needle from back to front under the strand running between the stitch on the left needle and the stitch on the right needle. Lift this strand onto the left needle and then knit into the front of the strand, thus twisting the base of the new stitch.

Insert the tip of the left-hand needle

from front to back under the strand running between the stitch on the left needle and the stitch on the right needle. Lift this strand onto the left needle and then knit into the back of the strand, thus twisting the base of the new stitch.

A *cast-on increase* may also be termed a Make 1. It also sits between two stitches, and is nothing more than an e-wrap cast-on. However, it may be made symmetrically, according to the way the stitch is wrapped onto the needle.

Twist the working yarn to create a loop, and place it onto the right-hand needle. The yarn may be twisted so that the working end exits the new stitch toward the back or toward the front, depending on the look you desire. For some reason, I find it easiest to make the twist with my right hand for the yarn to exit the back of the stitch and with my left hand for the yarn to exit the front of the stitch. ■
